Roles in Project

G00433265 Niall- **Product Owner**

G00433270 Kamil - **Dev Ops**

G00436648 Marko - **Tester**

G00435838 Daniel Balcerzak - **Scrum Master**

Project Roles & Responsibilities

Niall – Product Owner

Responsibilities:

- Defines the project vision and goals
- Prioritizes the product backlog
- Acts as the main point of contact for stakeholders
- Ensures the project delivers value to users

Interests :

Interested in product strategy, user experience, and aligning technical work with business needs, enjoys football as a pastime.

Short Introduction:

Niall oversees the overall direction of the project, ensuring that the team is focused on delivering features that meet user and stakeholder expectations.

Kamil – DevOps Engineer

Responsibilities:

- Manages deployment pipelines and system infrastructure
- Ensures application reliability and scalability
- Handles CI/CD processes
- Monitors system performance and security

Interests :

Interested in automation, cloud technologies, and optimizing development workflows, loves playing computer games as a personal interest.

Short Introduction:

Kamil is responsible for maintaining a stable and efficient development environment, supporting the team through reliable deployment and infrastructure management.

Marko – Tester

Responsibilities:

- Designs and executes test cases

- Identifies and reports bugs and defects
- Ensures product quality and reliability
- Verifies features meet requirements

Interests :

Interested in software quality assurance, testing tools, and improving user experience through bug prevention plays the electric guitar since a young age.

Short Introduction:

Marko focuses on ensuring the product meets quality standards by thoroughly testing features and identifying issues before release.

Daniel Balcerzak – Scrum Master

Responsibilities:

- Facilitates Scrum ceremonies (stand-ups, sprint planning, retrospectives)
- Removes obstacles blocking the team
- Ensures Scrum principles are followed
- Supports team collaboration and continuous improvement

Interests :

Interested in agile methodologies, team productivity, and process improvement robotics and Lego.

Short Introduction:

Daniel supports the team by guiding the Scrum process, promoting effective collaboration, and helping the team work efficiently throughout the project lifecycle.

Team Working Agreement

- The team will meet **every Tuesday at 11:00 AM outside the library** as the primary in-person meeting point.
- Team members are expected to arrive on time and notify the group in advance if they are unable to attend.
- Clear and respectful communication will be maintained at all times.

- Tasks and responsibilities will be agreed upon during meetings and tracked throughout the sprint.
- Team members will support each other and collaborate to resolve issues as they arise.
- Any blockers or concerns should be raised early to avoid delays.
- Feedback will be shared constructively to encourage continuous improvement.
- All members are responsible for contributing equally to the success of the project.

Reflections

```
Team Contribution:
We worked well together to set up the required tools and divide responsibilities efficiently.
 Communication was clear and each member completed their assigned setup on time which helped
establish a solid foundation for managing the project using Scrum.

Individual Contributions:
Kamil: Set up Microsoft Azure
Niall: Set up Github
Marko: Set up Jira
Daniel: Set up OneNote
```
